

**STATE BOARD OF EDUCATION
NOVEMBER 22, 2002**

B. SUBJECT

Pending Rules – Interim Certification (08.02.02)

BACKGROUND

Current rules provide for an interim certificate for out-of-state certificate holders for up to five years.

DISCUSSION

These rule changes provide that the State Department may issue a non-renewable three-year certificate to applicants that hold a valid out-of-state certificate. Three years is less time than allowed currently, but necessary to allow time for individuals to meet Idaho unique certification requirements.

No substantive changes have been made since initial Board approval in June, only minor clerical changes for correctness and clarity.

COMMENTS / IMPACT OF ACTION

These changes will reduce the amount of time given to out-of-state certificate holders to meet Idaho certification standards. The changes also clean up the language in rule, deleting procedural requirements unnecessary for inclusion in rules. No comments have been received since initial Board approval. Upon final Board approval, the rule will go forward to the Legislature for final action.

BOARD ACTION

A motion to approve as pending rules 08.02.02.050 Idaho Interim Certificate with changes as indicated.
